Omni Moveable Wall System

# About omni moveable office

## 3D

When dealers and interior designers begin working with omni, the first thing they comment on is our service. Our designers create a 3D layout of a customer's ideal space in record time. Our solutions ship in 25-30 business days or less.

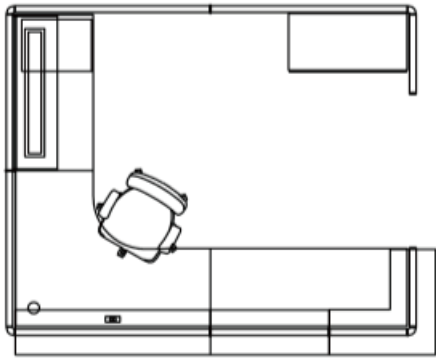

We also know the industry. We've been building functional furniture for over 20 years. We're located in Jiangsu, Yangzhou. Our efficient manufacturing process translates into affordable, high-quality furniture for your customers and increased profit margins for you. When sourcing our products, choose from a full product line of desks, conference tables, reception areas, office systems, worksurfaces and accessories like power

keyboards—all customized. Whether you are outfitting a space for one or 1,000 employees, we'll help you create a functional space for your customer quickly and easily. Contact us with any questions or to request more information.

## SIMPLE AND FUNCTIONAL

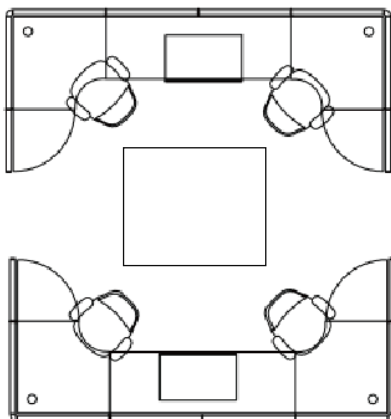

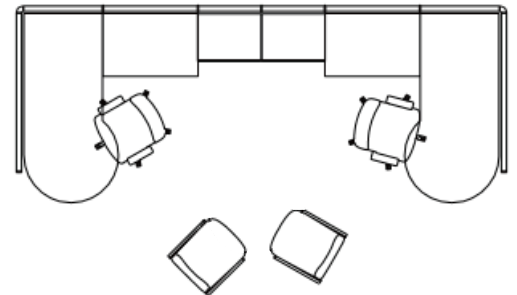

### Reception/Workstation

High panels on the back side create privacy and allow for storage while low panels with transaction counters on the front, create an approachable reception station/workstation combination.

- 10' x 8' reception station
- 3-drawer lateral file
- Overhead cabinets with task light and tack board
- Box/box/file pedestal
- Counter along front

### Two-Person Teaming

Two-person workstation provides ample central storage, glazed panels and a common meeting area. 5'6" x 6' individual stations with bookcase, storage.

### Four-Person Teaming Bullpen Style

Provides a "functional" type configuration. Four corner work surfaces with a central table allow team members to work individually or as a group. 5' x 6' individual station, shared mobile file center 60" middle shared table.

## SIMPLE AND FUNCTIONAL

### Four-Person Semiprivate

Tall panel heights allow privacy and a defined personal space.

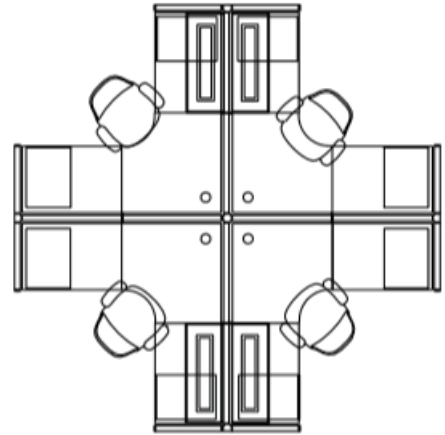

Individual storage units provide a place for personal items.

6' x 6' individual station

Overhead cabinets with task light and tack board

Box/box/file pedestal

File/file pedestal

### Eight-Person Teaming

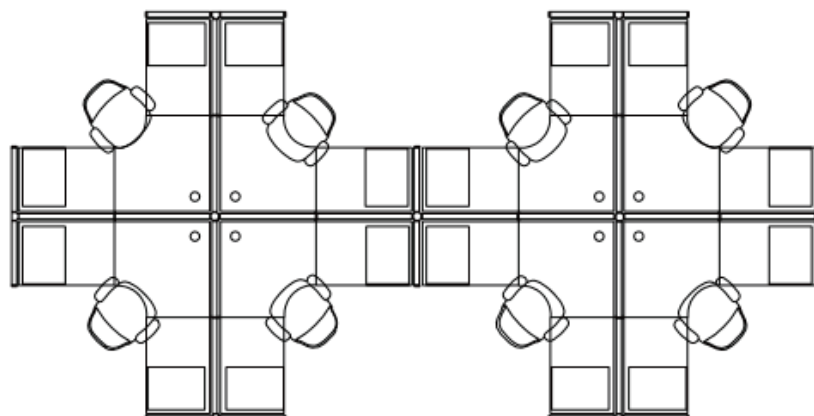

Simple panel heights allow team members to interact across the panels while retaining a defined personal space.

Individual storage units provide a place for personal items.

6' x 6' individual station

Box/box/file pedestal

File/File Pedestal

## MULTIPLE PANEL OPTIONS

OMW panels are available with a fabric covered hard surface, trackable and acoustical, laminate, white board, and glazed options - including clear, frosted and smoked. It also comes in paint finishes that match or are compatible with Steelcase® colors. Standard finishes include: BU (Black Umber), HF (Innertone Light), MT (Medium Tone), WD (White Wonder), MS (Metallic Silver). Special finishes also available.

## Details

**Full** glazed panels are available with clear or frosted glass. Glazed panels are assembled in widths of 24", 30", 36" or 48", and in many heights, using our OMW panel designs.

**Panel** features a mid-height top cap with a knockout that allows for data and communication cabling.

**omni** electrical comes in 8 wire/4 circuit or 5 wire/3 circuit. All are UL listed in our OMW systems.

**Flush** raceway is metal versus textured plastic for quality impression. Available in a variety of sizes.

**Overhead** storage units can be fabric covered or metal. Metal flippers feature door fronts that can recede or go over the top.

# Features

OMW panels are trackable as a standard, allowing the system to be easily field expanded from one height to another height all the way up to standard ceiling height, and therefore offering a floor-to-ceiling office design option. Available in 5 heights and 6 widths and come in fabric, laminate, frosted, smoked, and clear acrylic, as well as whiteboard options.

- Universal single design panel to panel hardware connection.
  1. No additional parts (e.g. connectors of varying heights and shapes).
  2. All panel to panel angles are possible which is better for re-purposing.
- Panel base raceway is flush, which is a more current modern design.
- Panel to panel drop height connector is simple steel connection - not a plastic variable height strip.
- Flush raceway is metal versus textured plastic for quality impression.
- OMW comes with full height doors and sliding doors.
